CUSTOM YOUR EVOLVE

DESIGN YOUR MODULAR BATHROOM FURNITURE

- 1 Analyse the dimensions of the available area in your bathroom and decide the width of your bathroom furniture (up to 160 cm). Then choose your ideal combination of modules: two drawers, a door with shelves, and shelves.

Next, select the finish of the furniture that best suits your taste and the style of the project. For lacquered options, you can choose between the Prisma texture or smooth finish.

- 2 As a novelty, you can combine the same finish for both the furniture and the washbasin (Full Colour) or with natural stones that combine perfectly, with the option to choose from:

- Inset washbasin format. Made from Mineral Solid.
- Countertop washbasin format:
 - Washbasins: SX12 (Three models): Full Colour option available.
- Countertops:
 - Evo-wood:
 - Laminated: Full Colour option available.
 - Lacquered soft: Full Colour option available.
 - Stone:
 - Microtech: Full Colour option available.
 - Compact.

- 3 Complete your furniture with our accessories:

 - Tray covers

- 4 Finish and select with a wide range of options for plumbing installation.

You can complete your bathroom with our mirrors and accessories, which will add even more character to your project.

- 1 Analiza las dimensiones del área disponible en tu baño y decide el tamaño de ancho de tu mueble de baño (hasta 160 cm). Después escoge tu combinación idónea de módulos: dos cajones, puerta con estantes y estantes.

A continuación, elige el acabado del mueble que mejor se adapte a tu gusto y al estilo del proyecto. En las opciones lacadas puedes escoger entre la textura Prisma o liso suave.

- 2 Como novedad podrás combinar el mismo acabado del mueble y el lavabo (Full Color) o con piedras naturales que combinan perfectamente pudiendo elegir entre:

- Formato lavabo encastrado. Fabricados en Mineral Solid.
- Formato lavabo sobreencimera:
 - Lavabos: SX12 (Tres modelos): Posibilidad Full Color.
- Encimeras:
 - Evo-Wood:
 - Laminada: Posibilidad de Full Color.
 - Lacada soft: Posibilidad de Full Color.

CONTEMPORARY NEOCLASSIC.
SIMPLE, ELEGANT AND ABSOLUTELY
CHAMELEON-LIKE.

At first glance it could be included in a neoclassical style, although its emblematic shooter gives it a very contemporary air.

Neoclásico contemporáneo. Sencillo, elegante y absolutamente camaleónico. A primera vista podría englobarse en un estilo neoclásico, aunque su emblemático tirador le aporta un aire muy contemporáneo.

General Care & Maintenance Bathroom Accessories

Cuidado y Mantenimiento Accesorios Baño

EN

Sonia Accessories stand out for the long lasting quality and intense gloss in their finish.

In order to maintain your Sonia accessories with its brand new luster, it is important to follow some simple instructions:

Use only neutral non-abrasive detergents. Avoid aggressive products such as bleach, sulfamán (hydrochloric acid), muriatic acid, formic acid, phosphoric acid, acetic acid (vinegar), ammonia, as they cause the appearance of rust. Check the composition of the cleaning products used.

It is recommended to use a soft cloth, do not use abrasive cleaners, steel wool or pads.

Do not spray cleaning agents directly on the accessories under any circumstance, spray on the cloth.

The use of steam cleaners is not recommended since the extreme high temperature of steam can compromise the integrity of the coating finish of the product.

Dry the surface after cleaning

ES

Los accesorios de Sonia destacan por su calidad y brillo intenso que perdura a lo largo de la vida.

Para que los accesorios conserven el brillo del primer día es importante seguir unas sencillas instrucciones de mantenimiento:

Usar sólo detergentes neutros. Evitar productos agresivos como lejía, sulfamán, ácido clorhídrico, ácido muriático, ácido fórmico, ácido fosfórico, ácido acético (vinagre) y amoníaco, ya que provocan la aparición de óxido. Revise la composición de los productos de limpieza utilizados.

Recomendable utilizar un paño suave. Evitar utensilios abrasivos, esponjas metálicas o estropajos.

No rociar agentes limpiadores en ningún caso sobre los accesorios, sino sobre el paño.

No utilizar limpiadores a vapor.

Secar la superficie tras la limpieza.

Stainless Steel Maintenance Accessories

Mantenimiento Accesorios en Inox

EN

Be careful with the cleaning of stainless steel accessories to maintain their quality.

HOW TO CLEAN:

Periodically, wash the surfaces with water plus neutral soap until the dirt is removed.

Use cloths and/or sponges that do not scratch the stainless steel.

Never forget a good rinse with water after any cleaning operation.

A final drying will enhance the beauty of the surfaces.

WHAT NOT TO DO:

Do not use bleach.

Never use a steel wool in contact with stainless steel, which will cause iron contamination with the consequent immediate appearance of brown-orange oxides on the stainless steel surfaces.

In addition to the general cleaning standards, in which simply washing with water plus neutral soaps are sufficient to maintain the surfaces, depending on the specific media where the stainless steels are found, different cleaning practices will be necessary.

As a general rule, it is appropriate to test on an inconspicuous area of the product, in order to observe how the chosen utensil affects the surface of the stainless steel.

ES

Ser cuidadosos con la limpieza de los accesorios en acero inoxidable para mantener la calidad de los mismos.

INSTRUCCIONES DE LIMPIEZA:

De una forma periódica, lavar las superficies con agua más jabón de tipo neutro hasta la eliminación de la suciedad.

Emplear bayetas y/o esponjas que no arañen al inoxidable.

No olvidar un buen aclarado con agua después de cualquier operación de limpieza.

Un secado final realzará la belleza de las superficies.

COSAS A EVITAR EN LA LIMPIEZA:

No se deben usar lejías.

Nunca utilizar lana de acero en el inoxidable, lo cual provocará contaminación por hierro con la consiguiente aparición inmediata de óxidos marrones-anaranjados sobre las superficies del inoxidable.

Además de las normas generales de limpieza, en las que simplemente lavados con agua más jabones de tipo neutro son suficientes para el mantenimiento de las superficies, según los medios específicos donde se encuentren los inoxidables, serán necesarias diferentes prácticas de limpieza.

Como regla general, es adecuado hacer una prueba en una zona poco visible del producto, con el fin de observar como afecta el utensilio elegido sobre la superficie del inoxidable.

PVD Maintenance Accessories

Mantenimiento Accesorios en PVD

EN	ES
 To maintain the superior finish of PVD products, be sure to use only a damp cloth with dilute mild detergent (ie hand dish soap containing only surfactants that dissolve dirt and grease) and then dry thoroughly.	 Para mantener el acabado superior de los productos PVD, asegurarse usar solo un paño húmedo con detergente suave diluido (es decir, jabón para lavar platos a mano que solo contiene tensioactivos que disuelven la suciedad y la grasa) y luego secarlo bien.
 Debris buildup can discolor the original finish, so to prevent this damage, we recommend cleaning and drying the product regularly. It is best to include this in a regular cleaning schedule.	 La acumulación de residuos puede decolorar el acabado original, por lo que, para evitar este daño, se recomienda limpiar y secar el producto con regularidad. Lo mejor es incluir esto en un programa de limpieza regular.
 Do not use harsh chemicals (such as caustics, citric acid, bleach, vinegar, alcohol-based chemicals or chloride-containing detergents, or any other harsh household cleaners), abrasive cleaners, or scouring pads on any PVD product, as this it can affect the finish over time.	 No utilizar productos químicos agresivos (como cáusticos, ácido cítrico, lejía, vinagre, productos químicos a base de alcohol o detergentes que contengan cloruro, o cualquier otro producto de limpieza doméstico fuerte), limpiadores abrasivos o estropajos en cualquier producto PVD, ya que esto puede afectar el acabado con el tiempo.
 Never use steel wool as it will leave fine ferrous particles behind which will rust on the surface.	 Nunca usar lana de acero, ya que dejará partículas ferrosas finas que se oxidarán en la superficie.
 Do not use oily rags or greasy cloths to clean the surface of the product. It is recommended to use a soft cloth.	 No utilizar trapos aceitosos ni paños grasientos para limpiar la superficie del producto. Se recomienda utilizar un paño suave.

ES
